Skills

- **Languages:** Java, Python, SQL, Excel
- **Visualization:** Power BI, Tableau, Matplotlib, Seaborn
- **Data Science & ML:** Scikit-learn (basics), Data Preprocessing, EDA
- **Databases:** MySQL, Relational Database Concepts
- **Soft Skills:** Leadership, Problem-Solving, Quick Learning, Adaptability

Projects

Car Price Prediction using Machine Learning | December 2025

- Analyzed automobile data to identify factors affecting car prices (engine size, horsepower, mileage, weight).
- Applied preprocessing and supervised learning with scaling, train-test split, and regression/classification models.
- Provided price predictions with an R^2 of ~0.85, improving reliability by ~35% using standard ML metrics.

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Jupyter Notebook, Matplotlib

Power BI Customer Churn Dashboard | December 2025

- Evaluated 10,000+ bank customer records to identify customer churn trends and risk patterns effectively.
- Created a Power BI dashboard using DAX and Power Query to visualize customer churn insights.
- Identified high-risk customer segments and key churn drivers to enable targeted retention strategies.

Tech Stack: Power BI, DAX, Power Query, Data Modeling, Interactive Visuals

Fleet Manager Chatbot | May 2025

- Built a web-based AI chatbot for fleet management to automate queries and enhance user interaction.
- Developed a Flask-based backend with a lightweight frontend for real-time conversational responses.
- Delivered a functional conversational interface that streamlined queries and improved task efficiency by 30%.

Tech Stack: Python, Flask, REST APIs, HTML, CSS, JavaScript

Training

CiphersSchools - Data Structure and Algorithm using Java | July 2025

- Established a solid foundation in Java Data Structures, including arrays, linked lists, stacks, queues, and trees.
- Practiced core algorithmic techniques in Java, including recursion, sorting, searching, and simple greedy and traversal methods.
- Enhanced problem-solving skills by completing beginner–intermediate DSA exercises, improving logic building and understanding of time–space complexity.

Tech Stack: Java, Arrays, Linked Lists, Stacks, Queues, Recursion, Sorting, Searching

Certificates

- Git and GitHub by CipherSchools | June 2025
- Cloud Computing by NPTEL (IIT Kharagpur) | April 2025
- Python for Beginners Certified by Scaler | February 2024

Extra-Curricular Activities

- Contributed to community outreach and awareness programs, supporting various initiatives organized by Purvanchal Gramin Seva Samiti (PGSS). | June 2024
- Organized HackVerse hackathon at the university, coordinating with industry experts and guiding participants, enhancing leadership and event management skills. | March 2024

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.26*** *August 2023-Present*
- **Saraswati Shishu Mandir, Gorakhpur** Uttar Pradesh, India
  Intermediate; ***Percentage: 65.8%*** *April 2022-May 2023*
- **Saraswati Shishu Mandir, Gorakhpur** Uttar Pradesh, India
  Matriculation; ***Percentage: 81.83%*** *April 2020-May 2021*
